# How it Looks

The screenshot displays the CasinAnalyzer website interface. At the top, the navigation bar includes the logo, 'CASINOS ANALYZER', and menu items for 'Casino Bonuses', 'Free Spins', and 'Online Casinos'. There are also utility icons for currency (40), a 'HOT' badge, a gift icon, and a globe. The main content area is divided into two columns. The left column, titled 'Top New Casino Bonuses in June 2025', features three promotional cards. The first card for RocketSpin Casino offers 'Get Up To \$5,000 + 300 Free Spins' with a 30 currency unit minimum deposit and 40x wager. The second card for 7Bit Casino offers 'Get 200 Free Spins on Deposit To Play Snoop Dogg Dollars' with a 20 dollar minimum deposit and 35x wager. The third card for StayCasino offers 'Up to \$5000 + 300 Free Spins' with a 30 dollar minimum deposit and 40x wager. Each card includes a 'Get Bonus' button, a 'Show T&C' link, and a 'review' link. The right column, titled 'Popular categories', lists five categories: 'All Casinos' (top rated), 'New Casinos' (latest launched), 'No Verification Casinos' (best no KYC), 'Fast Payout Casinos' (instant withdrawal), and 'Paypal Casinos' (accept paypal). A green callout box at the bottom of the screenshot reads 'Sponsored Spot'.

You can place any offers, not just those that match the user's intent on the page. If you're unable to offer no-deposit or low-deposit bonus, you can increase your visibility through special placements—ensuring your brand is seen and attracting highly engaged players.

Additionally, the top position is visible in the footer, and there are various placement options, including header, footer, and more.
